

### S-600 Standalone Rack SmartCard Handle

Patented & Worldwide Patents

Rack level access security has become critically important for all data centers and server rooms. More and more IT managers have recognized this need and upgraded their racks with smartcard access control. To meet the increasing needs, Austin Hughes offers the **InfraSolution® S Standalone SmartCard Handle** at affordable prices.

## Key Benefits

### >>> Affordable Price

A basic rack can be upgraded with smartcard access control at an affordable price.

### >>> Quality Products & Service Commitment

We are committed to providing high quality products and services. All purchases of our long life products with 2 years warranty standard can be upgraded to 5 years.

### >>> Simple Components & Easy Installation

The key hardware components for each rack just consists of a pair of smartcard handles, two door sensors and cable accessories. The hardware installation is so easy that even the end-users can do it. Both Left and Right opening handle models are available.

### >>> LED for Clear Lock Status Indication

Three LED color modes on the smartcard handle indicate the lock status clearly. An authorized unlock is signaled by a silver white flashing LED. Unauthorized rack access will result in a red flashing LED following with an audible alarm while the handles are equipped with door sensors.

### >>> Proximity & MiFARE Compatible

Compatibility issues between different access card standards are a major consideration when deploying a smartcard system. The InfraSolution standalone series caters for the two most common smartcard alternatives – the Proximity & MiFARE. User's existing smartcard can be used on S-600 if it is in either of the above.

### >>> Dual Card Authentication by Administrator and User Cards

InfraSolution S offers an administrator card option to provide dual card authentication rack access. Unless the administrator card detects in advance, the smartcard handle cannot be unlocked by the user smartcard. The dual card authentication access makes sure that any authorized door opening is fully under the data center's monitoring.

# Smartcard Handle

The patented S-600 smartcard handle mounting is not compatible to the universal mounting cut-out. Nevertheless, the rack manufacturers just need to make a custom handle mounting cut-out on the door to suit S-600 smartcard handle. It is an alternative for users who look for a handle with a stylish and different outlook design.

Quick Installation

InfraSolution S installation is simple and quick - it just involves the smartcard handles, door sensors and easy cabling.

- ① S-600P Proximity or S-600M MIFARE smartcard handle :  
2pcs for front & rear door, with cables to connect ② ③ ④
- ② Optional door sensor with cable : 2pcs for front & rear door ( 2m )
- ③ Power cable ( door section ) : 2pcs for front & rear door ( 2m )
- ④ Data input connector ( for handle activation / data input / configuration )
- ⑤ Joint connector of ③ & ⑥
- ⑥ Y-Power cable ( rack section )
- ⑦ Universal Auto switching 2.5A power adapter & 6' power cord

Free & User friendly Software

InfraSolution S provides two user-friendly software free. UTILITIES ISU-01 is ideal for the initial setup and simple operation. To look for relatively high requirements like the reporting feature and password security, MANAGER ISM-01 will be the one you should apply for.

Order Tips

>> Smartcard handle model - Proximity OR MiFARE

Model	Proximity	MiFARE
S-600P	✓	
S-600M		✓

>> Order the handle data input cable ( ISW-USB-1.8 )

At least one data input cable for each installation site.

>> Optional door sensor - Inductive ( S-DSI ) OR Mechanical ( S-DSW )

Door sensor is essential for visual & audio alarm and able to achieve a more user-friendly operation.

Skip the option If audio & visual alarm is not required.

>> Select the free software - Utilities ( ISU-01 ) OR Manager ( ISM-01 )

InfraSolution S provides two user-friendly software free. ISU-01 is ideal for the initial setup and simple operation. To look for relatively high requirements like the reporting feature, ISM-01 will be the one you should apply for.

>> Pick the right power plug

Different power cords for selection :

Value-Add Options

>> Enjoy the warranty upgrade from 2 years to 5 years

>> Upgrade key lock

- Individual key lock ( ISK-C051 )

· Unique key lock ( ISK-UKL )
- Up to 500 individual key-locks available

- Unique key dedicated to single project / customer regionally

- For project size over 500 racks

>> Order smartcard & card reader

- Proximity 26-bit Smartcard ( ISC-P10 )

· MiFARE 26-bit Smartcard ( ISC-M10 )
- Proximity Smartcard Reader ( ISC-PCR )

· MiFARE Smartcard Reader ( ISC-MCR )

>> Consider dual card authentication for additional security

( DCS-01 )

Optional Accessories

**IR door sensor with 2m cord, pair ( S-DIR )**

- Light weight & mini size with magnetic base
- Easy for existing rack retrofit or integration to new rack

**Inductive door sensor with 2m cord, pair ( S-DSI )**

- Light weight, mini size & adhesive
- Easy for existing rack retrofit or integration to new rack

**Mechanical door sensor with 2m cord, pair ( S-DSW )**

- Cost efficient integration to new rack

**Handle data input cable, pc ( ISW-USB-1.8 )**

- Connect the smartcard handle to the laptop for handle activation, data input & configuration

**Individual key lock, set of 2 for front & rear door ( ISK-C051 )**

- Up to 500 individual key-locks available

**Unique key lock ( ISK-UKL )**

- Unique key dedicated to single project / customer regionally
- For project size over 500 racks

**Dual card authentication ( DCS-01 )**

- Software upgrade for additional security
- Rack access by administrator card + user card

\*\* Order this option before the delivery

**Proximity smartcard, pack of 10 ( ISC-P10 )**

- Proximity 26-bit format
- Single card for multiple application
- Custom card layout available

**MiFARE smartcard, pack of 10 ( ISC-M10 )**

- MiFARE 26-bit format
- Single card for multiple application
- Custom card layout available

**Proximity card reader ( ISC-PCR )**

- Proximity 26-bit smartcard compatible
- Convenient way for smartcard ID reading
- Driverless for easy installation

**MiFARE card reader ( ISC-MCR )**

- MiFARE 26-bit smartcard compatible
- Convenient way for smartcard ID reading
- Driverless for easy installation
