

Release Notes for PDU IP Dongle (IPD-03-S) Firmware Version 3.16

Version : IPD-03-FW-v3.16

Date : 12 Sept 2024

Availability : Immediately

New Feature:

- Support multiple outlet ON / OFF in WEBUI
- Add “ \$ “ as a valid symbol for login password for WEBUI and Command line interface

Bug Fix:

- Failure of login authentication via LDAP & Radius server
- Incorrect subnet mask information shown on the local meter display
- Fail to save the change of IP dongle name and location field after reboot

Paths for Upgrade :

Due to the firmware upgrade mechanism changes, the following upgrade path need to be followed.

Firmware Version	Upgrade Steps
IPD-03-FW-v3.15 or before	IPD-03-FW-v3.15 >> IPD-03-FW-v3.16
IPD-03-FW-v3.1i	IPD-03-FW-3.16
