

Release Notes for Build-in IP Dongle (IPD-03-S, single LAN) Firmware Version 3.21H for W3 meter

Version : IPD-03-FW-v3.21H

Date : 21 May 2025

Availability : Immediately

New Feature:

- Add a table "phases" in the SNMP MIB file which provides the reading of each phase for 3 phase devices.
- Add phase reading details for 3 phase devices in Detail page of the WEBUI
- Add user right (write / read and read only) for user login authentication via LDAP or AD server.

Bug Fix:

- Intermittent authentication failure via 802.1X authentication.

Paths for Upgrade :

Due to the firmware upgrade mechanism changes, the following upgrade path need to be followed.

Firmware Version	Upgrade Steps
IPD-03-FW-v3.15H or before	IPD-03-FW-v3.15H >> IPD-03-FW-v3.21H
IPD-03-FW-v3.16H or later	IPD-03-FW-3.21H
